

Definition of NWS “Core Partner”

Summary

- Government and non-government entities which are directly involved in the preparation, dissemination and discussions involving hazardous weather or other emergency information put out by the National Weather Service.
- We recognize there are many who contribute to overall services -- “core partner” designation identifies those entities which have a unique need for assured access to unaltered NWS information because of the level of interaction required with NWS.
- Comprised of 3 main groups:
 - Member of the emergency management community
 - Federal/state/local government partners who require close coordination with NWS
 - Members of the electronic media
