

FAA Flight Standards

Who we are and what we do...

Federal Aviation Administration

What do you know about:

- **The FAA**
- **Flight Standards**

FAA

Summary of Activities

- **We're responsible for the safety of civil aviation. The Federal Aviation Act of 1958 created the agency under the name Federal Aviation Agency. We adopted our present name in 1967 when we became a part of the Department of Transportation. Our major roles include:**

FAA Activities

- **Regulating civil aviation to promote safety**
- **Encouraging and developing civil aeronautics, including new aviation technology**
- **Developing and operating a system of air traffic control and navigation for both civil and military aircraft**
- **Researching and developing the National Airspace System and civil aeronautics**
- **Developing and carrying out programs to control aircraft noise and other environmental effects of civil aviation**
- **Regulating U.S. commercial space transportation**

Our Mission

- **Our mission is to provide the safest, most efficient aerospace system in the world.**

Our Vision

- **Our vision is to improve the safety and efficiency of aviation, while being responsive to our customers and accountable to the public.**

Our Values

- **Safety is our passion. We're world leaders in aerospace safety.**
- **Quality is our trademark. We serve our country, our customers, and each other.**
- **Integrity is our character. We do the right thing, even if no one is looking.**
- **People are our strength. We treat each other as we want to be treated.**

**We really are here
to help you!**

**Federal Aviation
Administration**

Aviation Safety (AVS) Offices

- Accident Investigation
- Aerospace Medicine
- Air Traffic Safety Oversight Service
- Aircraft Certification Service
- Flight Standards Service
- Rulemaking

Flight Standards Service

- **Accomplishing certification, inspection, surveillance, investigation, and enforcement**
- **Setting regulations and standards**
- **Managing the system for registration of civil aircraft and all airmen records**

- **Offices:**
 - AEG, CMU, FSDO, IFO

Flight Standards District Offices (FSDO)

Contact a FSDO for:

- Low-flying aircraft
- Accident reporting
- Aircraft modifications and permits
- Certification and surveillance of air operators, air agencies, and airmen
- Enforcement and investigation
- Aviation safety education and training

Flight Standards Services - what we do

Federal Aviation
Administration

Cleveland FSDO Service Area

CLE FSDO Stats

- **Total Pilots** **7,139**
- **Total CFIs** **1,295**

- **Total Mechanics** **2,266**
- **Total Repairman** **612**

Flight Standards

Aviation Safety (AVS)

- **Aviation Safety is an organization responsible for the certification, production approval, and continued airworthiness of aircraft; and certification of pilots, mechanics, and others in safety-related positions.**

Flight Standards

Aviation Safety (AVS)

- **Aviation Safety is an organization responsible for the certification, production approval, and continued airworthiness of aircraft; and certification of pilots, mechanics, and others in safety-related positions.**

Flight Standards

Aviation Safety (AVS)

- **Aviation Safety is an organization responsible for the certification, production approval, and continued airworthiness of aircraft; and certification of pilots, mechanics, and others in safety-related positions.**

Flight Standards

Aviation Safety is also responsible for:

- **Certification of all operational and maintenance enterprises in domestic civil aviation**
- **Certification and safety oversight of approximately 7,300 U.S. commercial airlines and air operators**
- **Civil flight operations**
- **Developing regulations**

Flight Standards

Aviation Safety is also responsible for:

- **Certification of all operational and maintenance enterprises in domestic civil aviation**
- **Certification and safety oversight of approximately 7,300 U.S. commercial airlines and air operators**
- **Civil flight operations**
- **Developing regulations**

Flight Standards
